SUPPLY. DEMAND. **GMA.**

GMA is the only global garnet supplier that controls the supply chain from the mine to your door. For 35 years, GMA has produced the highest quality premium garnet for abrasive blasting and waterjet technology. Companies like yours that demand a reliable supply of the world's finest garnet depend on GMA.

AT **GMA**, TRUST IS NOT  
SOMETHING WE TAKE LIGHTLY.

Your business runs on the promises you keep. So does ours. At GMA, we pledge to provide you with superior, precision-cut garnet abrasives with no interruption to your supply. You ask your customers to trust you. With the right supplier of the world's finest garnet, that's a promise you can keep.

NEW **TOUGHBLAST™** PACKS A PUNCH!

You've got a job to do and an inspection is coming. The clock is ticking. Speed matters but you need strength, too. New ToughBlast™ from GMA is a powerful 60/30 blend of premium garnet that gracefully strips and cuts away layers of thick paint and coatings. But ToughBlast™ also packs a punch. It's engineered to hammer through the heaviest rust at a blasting rate of up to 370 ft2 per hour. It's a lethal combination of speed and power that helps you scour your surface down to clean white metal in no time flat. Job done!

more than just garnet

**Time to kick the habit.**

**INVICTA®**

The age of the cylindrical filter is over. Kaput! Finis. Done. And 9 out of 10 doctors agree it's time you kick your cylindrical filters to the curb. FTC's new Invicta technology uses trapezoidal filters which significantly improve filter packing density in traditional filter vessels. The result is significantly increased surface area, lower flux rates, longer run times and fewer change-outs. The future of liquid filtration has a new shape. Learn how Invicta can improve your fluid process operations.

 **FTC**

**DEAD SPACE**

That's the dreaded open area around your cartridge filters where efficiency and effectiveness curl up and die. Invicta™ from FTC removes dead space, increases packing density, improves flow capacity, and provides 176% more surface area than traditional cartridge filters. Hello efficiency. So long, dead space.

**INVICTA™**

Take a look at what Invicta provides and ask yourself why you would choose any other cartridge filter:

- Unprecedented filter element packing density
- Up to 176% more surface area
- Higher flow rate in smaller footprint
- More dirt holding capacity
- Lower clean pressure drop
- Less frequent filter change-outs
- Lower associated maintenance costs
- Reduced shipping and disposal costs
- Quick and easy retrofit for your current vessel

**Calls it quits at 5 o'clock**

**Loves all-nighters**

We all need reliable, long-lasting filters that don't know the meaning of the word "quit". With up to 176% more surface area to remove solid contaminants and higher flow rates, new Invicta® is your filter of choice.

We have changed the shape of filtration. Now let Invicta® improve your fluid process with reliable filtration performance and less frequent filter changes. Then you can do something better with your time when the clock strikes 5:00 pm.

 **INVICTA®**

OH YEAH,  
WE HAVE A FILTER FOR THAT.

No doubt about it. Whatever process you're running, we have a filtration and separation solution that will save you time and money in the long run. And if your process design has you stretching out into new territory, don't worry. New territory is kind of our thing.

FILTRATION CHALLENGES? RADICAL SOLUTIONS.

MASTERS OF THE  
ART OF FILTRATION.

Yin and Yang are not rigid. They are dynamic, fluid, something that our engineers understand. Reliably controlling contamination levels is the key to avoiding costly downtime, and even if your needs are unconventional, our engineers are highly skilled in customizing your solution. We call it Kung Fu engineering.

100% USDA PRIME

FTC filtration keeps your cash cow flowing

FTC filters provide consistent effluent quality with the most predictable filtration of impurities as feedstocks change in renewable fuel production. Keep your cash cow flowing with reliable pre-treatment of your catalyst feed. Beef up your filtration system. And eliminate unplanned shutdowns.

**In golf, sometimes hitting 100 is pretty damn good.**

Hitting the 100 year landmark is definitely worth a celebration. This year, the PGA Championship celebrates 100 remarkable years filled with amazing memories. This tournament has always been a showcase for excellence, and Aggreko, your power and air conditioning partner, applauds you. Here's to 100 more!

**CLEAN PROCESSES RELY ON 100% OIL-FREE AIR**

**Aggreko is your air compressor rental partner**

Aggreko's line of certified 100% oil-free air compressors are the right choice for all of the right reasons. Featuring new Tier 4 clean diesel technology, our 1,600 cfm air compressors are driven by smooth-as-silk Rolls-Royce engines providing the perfectly clean air you need to protect your equipment, your products, and the safety and comfort of your employees.

For short- or long-term rental, 100% oil-free air from Aggreko helps you maintain a safe, clean environment and smooth running, reliable operations.

Most importantly, when you rent from Aggreko you're renting equipment that was designed especially for you and the work you do. We were pioneers in this business, and we built our reputation on the reliability you count on when other equipment fails.
